

WASHINGTON DEPARTMENT OF FISH & WILDLIFE

SCIENTIFIC COLLECTION PERMIT ANNUAL REPORT FORM

Please submit this report no later than 60 days after permit's expiration date.

WDFW

Licensing Division

Attn: Scientific Collection Permits

600 Capitol Way North

Olympia WA 98501

(360) 902-2200

- For reptiles and amphibian, please provide Township, Range, Section, Quarter and sixteenth section or UTM.
- Latitude/Longitude, UTM coordinates, of Township/Range/Section would be preferable for all other terrestrial wildlife.
- For fish and other aquatic species, please provide WRIA and stream name or Marine Area where possible.

Disposition code may be used in place of description, except for number 12.

- | | | |
|--|---------------------------------|--|
| 1 Survey/observe/non-handling "take" | 5 Display, live | 9 Tag/mark/band and release |

| 3 Euthanize/mortality, hold for analysis | 7 Release at capture site, live | 11 Sub-lethal tissue collection, release |
| 4 Euthanize/mortality, waste disposal | 8 Release at capture site, dead | 12 Other (name) |

Permittee name:

Year:

Permit #:

Date of Collection	Species Name Scientific & Common Name	Number Encountered	• Location of Collection ¹	County (Required) ²	Disposition ³

¹ For location of Collection: the bulleted points above refer to the preference of location specificity at this time. For species that are not classified, listed as a federal/state Species of Concern, or indicated on the permit will not require the above specificity at this time.

² For County (Required): this is the only significant change on the annual report. It is not required for this year (2001), as with any other changes. The need for this requirement in the future relates to increasing the viability of evaluating the collection permit process as a whole—to get the big picture in management issues.

³ For Disposition: this portion is still under construction, however listing all numbers or the most significant number that applies is sufficient at this time.
